Washington, DC 20554

Re: IB Docket No. 11-109

Dear Ms. Dortch:

I write in support, as a private citizen and not speaking on behalf of any organization, of LightSquared's efforts to launch a nationwide 4G-LTE broadband wireless network. This network represents an exceptional opportunity to increase the amount of spectrum assigned to broadband wireless, a crucial goal of our National Broadband Plan.

As a wholesale provider, LightSquared will allow smaller wireless providers to offer world-class service and also enable many new competitors to enter the wireless market. Competition brings innovation, greater customer choice and lower prices. LightSquared's network also will bring much-needed investment in the U.S. economy, creating 15,000 jobs a year during its buildout. Why are we hesitating on the issue of job creation during this economic time, when so many are struggling to make ends meet?

For the benefit of our country please address this issue.

Sincerely,  
Tafili Luamanu
